Outcomes for English Learners

Since the early 1990s, English language learners have increased over 70% in the United States, making them the fastest growing group of students. With 14 million new immigrants arriving in the United States in the last ten years, it is evident that teachers need to use effective practices to ensure their success in acquiring academic English and the rigor required for school success.

Supporting English Language Learners - Generation Ready

Academic Language: What is it and why teach it? Every day in American schools, teachers welcome more students whose first language is something other than English. According to the Pew Research Center, this demographic trend will only grow exponentially in coming years. In fact: Pew estimates up to 93% of our population will come from immigrant populations and their children by the year 2050 ...
