There is a lot of good stuff contained in the Problems section of the American Mathematical Monthly. One difficulty with extracting that information, however, is that if I see an old Monthly problem, it is not always so easy to locate the solution. Sometimes the solution does not appear until many years later, and in some cases the solution has never appeared at all.

American Mathematical Monthly Problems Solutions

The “Problems and Solutions” section of The American Mathematical Monthly journal has always been a source of interesting problems to keep me entertained. Their solutions often require ingenuity. The problems in the October issue were no exception. I always analyze and explore these problems in Mathematica. Being a kernel developer, I see whether Mathematica can indeed find a solution.
