**biological inquiry a workbook of investigative cases: tree ...**  
Tree thinking recognizes that species are not independent replicates within a class (as earlier group thinkers had tended to see them), but are instead inter-connected parts of an evolutionary tree.

**(PDF) The Tree-Thinking Challenge - ResearchGate**  
Phylogenetic trees are the most conventional tool for display- ing evolutionary relationships, and "tree-thinking" has been coined as a term to describe the ability to conceptualize evolutionary relationships. Students often lack tree-thinking skills, and developing those skills should be a priority of biology curricula.
