Biostatistical Analysis 5th By Jerrold H. Zar ...

cor.test with method="spearman" actually calculates Spearman coefficient corrected for ties. I've checked it by "manually" calculating tie-corrected and tie-uncorrected Spearman coefficients from equations in Zar 1984, Biostatistical Analysis. Here's the code - just substitute your own variable names to check for yourself:

r - Spearman correlation and ties - Stack Overflow

According to Zar (Biostatistical Analysis) this approximation should only be used when $n > 10$. So with smaller n , Prism simply does not report the confidence interval of the Spearman correlation coefficient.

He later earned his M.S. and Ph.D. degrees in biology and zoology from the University of Illinois at Urbana-Champaign. Zar then returned to Northern Illinois University for 34 years to serve in a variety of capacities.

Biostatistical Analysis (Classic Version) (5th Edition ...

Careful analysis with biostatistical methods is required to separate the signal from the noise. For example, a microarray could be used to measure many thousands of genes simultaneously, determining which of them have different expression in diseased cells compared to normal cells. However, only a fraction of genes will be differentially expressed.
