Dictionary Of Mythology

Since Plato first coined the term 'mythologia', mythology has come to hold greater significance and power as a crucial element of civilization as a whole. Written by a leading scholar of ancient civilizations, A Dictionary of World Mythology presents the powerful gods of Greece, Rome, and Scandinavia, the more mystical deities of Buddhist and Hindu India, and the stern spirits of the African and American continents.

Dictionary of World Mythology - Oxford Reference

I always thought reading dictionaries like normal books, i.e. from page 1 to the end is stupid. But this experience proved me wrong. Although the subject matter of this particular dictionary might have played a role in this. This Dictionary of Mythology is very concise and to the point, yet very inclusive and somehow complete. Such a good job.

The Dictionary of Mythology: An A-Z of Themes, Legends and ...

This particular volume is an abridged version of J.A. Coleman's Dictionary of Mythology. The editor, George Davidson, admits in the introduction that it's terribly difficult to figure out exactly what to include in such a volume, as the things that constitute mythology are sometimes subjective, and that different people are interested in different areas of mythology at that.
