Freeman Dyson - Wikipedia
Freeman Dyson, one of the world's foremost theoretical physicists, wrote: 'The more I exam the universe and study the details of its architecture, the more evidence I find that the universe in some sense knew we were coming,' 1 Today scientists don't hesitate to acknowledge this wondrous fact of how tailor-made to life our universe is.

Was the Universe Expecting Us? | The Humble I
103 quotes from Freeman Dyson: 'We must be careful not to discourage our twelve-year-olds by making them waste the best years of their lives preparing for examinations.', 'The public has a distorted view of science because children are taught in school that science is a collection of firmly established truths. In fact, science is not a collection of truths.

Freeman Dyson—mathematician, astronomer, physicist—entices us into his autobiography with the charming story of himself at eight, reading Edith Nesbit's The Magic City. The boy in the story sees his drawings of a city transformed into reality and becomes the city's picaresque hero. One theme is this: whoever in the city wishes for a piece of machinery is compelled to use it, and to go on ...
