Gia Diamond Dictionary Liddicoat Richard

Liddicoat, who had long sought consistent standards for describing polished diamond quality, was the architect of GIA's D-to-Z diamond grading system. The system was introduced in 1953, and its popularity in the global diamond industry set the stage for the first GIA Diamond Grading Reports, issued two years later.

Richard T. Liddicoat (1918-2002) - GIA

Richard T. Liddicoat, Jr. (March 2, 1918– July 23, 2002) was an American gemologist. Liddicoat was an educator in gemology, who also made contributions in the area of diamond quality grading and gem identification. Liddicoat was the Chairman of the Board of Governors at Gemological Institute of America (GIA).

Fluorescence as a diamond characteristic was first described in 1940 by Robert M. Shipley, the patriarch of both the Gemological Institute of America and the American Gem Society, and Richard T. Liddicoat, GIA's renowned gemologist. 30 years later in 1970, some diamond traders also noticed that "milky" stones tended to be fluorescent as well.
