Most literature on international arbitration is practice-oriented, technical, and promotional. It is by arbitrators and largely for arbitrators and their clients. Outside analyses by non-participants are still very rare. This book boldly steps away from this tradition of scholarship to reflect analytically on international arbitration as a form of global governance.

### **International Arbitration and Global Governance ...**

Next, it describes the aspects of international arbitration culture that are most relevant to ICA's development as a form of global governance. In particular, it argues that arbitrators are driven to establish ICA as an autonomous, global system of governance by a shared dedication to internationalism for its own sake and also by a belief that internationalism serves the interests of commercial parties.

### **International Arbitration and Global Governance ...**

Global governance or world governance is a movement towards political cooperation among transnational actors, aimed at negotiating responses to problems that affect more than one state or region. Institutions of global governance—the United Nations, the International Criminal Court, the World Bank, etc.—tend to have limited or demarcated power to enforce compliance.
