1993 marked the release of the newly named "Kiwifruit Enthusiasts Journal Vol.#6" with kiwibob as assistant editor. In May of 2000, kiwibob started collecting information and photographs for the production of KEJ#7. This new volume of the Journal will be produced digitally and hopefully issued in CD-ROM version when complete.

Consumption of kiwifruit capsules increases ...

Consumption of kiwifruit is reported to
relieve symptoms of functional
gastrointestinal (GI) disorder. The effect
may be related to the proteases in
kiwifruit. This in vitro study aimed to
measure protein hydrolysis due to
kiwifruit protease under gastric and
duodenal conditions. A sequence of
experiments incubated meat protein,
with and without kiwifruit, with varying
concentrations of pepsin ...

by Tom Vigue If you think kiwis are all brown, fuzzy and can be grown only in New Zealand or California, think again. Although *Actinidia deliciosa*, the kiwi of commerce, is hardy only to 10° F, the more than 50 species within the genus *Actinidia* include many that are hardy to -30° F and some even to -40°. *Actinidia arguta*, the species most commonly referred to as hardy kiwi, is zone 4 hardy ...

He obtained his Nursery License in January 1986, began selling plants at the Pike Place Market in 1987, and local Farmers Markets in 1988. In 1992, he started selling plants wholesale. He also acted as Assistant Editor of "Kiwifruit Enthusiasts Journal Vol. #6" in late 1992.

January | 2016 | Snohomish County Fruit Society

Kiwi vines climb by wrapping around like pole beans or wisteria. So they need a support structure or host plant. My kiwi is using the deck supports and a flowering cherry tree for support. Mature female, *Actinidia deliciosa*, (the kiwi in stores) can produce up to 300 pounds of fruit each year. They can grow [...]
