If you file for Social Security retirement benefits before your full retirement age, there is a limit on the amount of income you can earn. This limit is almost always based on your annual earnings, but in certain circumstances, it could be your monthly earnings that are counted. The monthly income limit was created because the Social Security Administration recognized that some people who ...

Social Security Intelligence - with Devin Carroll

To understand Social Security benefit calculations, you first need to understand one piece of jargon: "primary insurance amount" (PIA). A person's primary insurance amount is the amount of their monthly retirement benefit, if they file for that benefit exactly at their full retirement age.. A Social Security spousal benefit is calculated as 50% of the other spouse's PIA.
