Technical Manual Numbering System

The Technical Manual Identification Numbering System (TMINS) is a method of classifying, indexing, and numbering Navy technical manuals. This system was developed to encourage standardization and modernization. The 13-character alphanumeric system is patterned after the 13-digit NSN and serves both as a technical manual identification number (TMIN) and as a number used to requisition technical manuals.

TECHNICAL MANUAL IDENTIFICATION NUMBERING SYSTEM

Technical Manual Identification Numbering System (TMINS) The TMINS numbering system was developed in coordination with other systems commands. It was developed in response to the project sponsored by the Naval Material (NAVMAT) Command to standardize technical manual numbers for all ships, aircraft and equipment, and their method of assignment throughout the Navy.
